# Overview

- Customs is the primary source of trade data;
- Trade data is collected from more than 30 border posts across the whole country;
- All transactions are declared upon entry/exit;
- Everything that add/subtract to the stock of materials in Namibia is accounted;
- Exports: out flow of all commodities to the ROW;
- Imports: Inflow of all commodities from the ROW;
- Re-exports: Out flow of all foreign goods;
